# KIP 2300

KIP 2300 CCD SCANNING SYSTEM

High Production Scan System

The new KIP 2300 high productivity scanner sets a uniquely high standard for speed, quality and flexibility in a digital image capture system.

Best in class productivity is achieved by a combination of advanced camera based image capture and Super-Speed USB3 Technology for high speed data throughput with no system pauses or slow downs.

Outstanding image quality is delivered through the innovative use of bright white LED light sources for illumination and 600 x 600 dpi image capture resolution.
The KIP 2300 is a high speed scan solution that provides world-class workflow flexibility through its ability to scan face up or face down and scan thick mounted originals and loose sheets of paper from a single unit.

Versatile Camera Imaging

The KIP 2300 Colour Scanner Solution can support both monochrome and colour scan-to-file and copy to satisfy most application needs. When scanning to file, users have advanced software controls over image quality; when copying.

The KIP 2300 scanner is powerful, with image capture speeds from 5 ips to 15 ips in monochrome (dependent on dpi) and 2 to 6 ips in colour. The image capture area is up to 914mm wide, yet originals up to 1066mm wide may be fed through the scanner.

Three independent imaging cameras with an advanced laser alignment system and self calibrating diagnostics provide an extraordinary level of quality.

Flexible Scan System

600 dpi optical resolutions is the key to the KIP 2300 Colour Scanner's outstanding imaging capabilities. In addition, the KIP 2300 Colour Scanner takes full advantage of patented (Real Time Thresholding) and self calibrating imaging cameras to ensure high quality results.

To optimise image size for intended use, users can select custom resolutions, for website, PC monitor displays and for offset press work.

Super-Speed USB3 Technology

The technology used in Super-Speed scanning provides an image data transfer rate of 5GB per second, ensuring high productivity for the most complex full colour documents. Originals are imaged at maximum speed with no scanning slowdowns or pauses, as found in competitive scanning systems. Super-Speed scanning delivers full colour, high speed imaging for the most demanding production environments.

Super-Speed USB3
T E C H N O L O G Y

- **Faster than any other competing image transfer technology**
- **10 times faster than USB 2.0!**
- **Scan documents at full speed and full resolution**
- **No scanning pauses or slow downs**
SYSTEM SOFTWARE K

KIP 720 / 2300 Stand Alone Scan Station
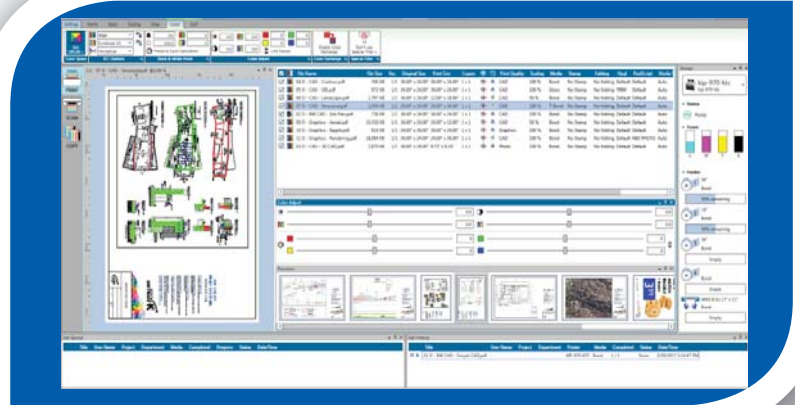

KIP ImagePro – Scan & Copy

KIP ImagePro – Scan & Copy software is the professional's choice for wide format production Scan & Copy providing a complete set of features for high resolution colour and B&W copying & scan-to-file applications. For exclusive use with the KIP 720 and KIP 2300 scanners.

KIP ImagePro tools are designed to enhance colour management capabilities. KIP ImagePro offers extensive features for increased productivity including image quality adjustments, high definition viewer with advanced Area of Interest functions, auto document width detection along with Auto Start for stream feeding originals, scan to local drives, LAN locations, USB and cloud storage.
Simplify document quality when scanning or copying difficult originals by selecting b&w point settings on-the-fly adjustments to quickly snap text to solid black or to clean up back ground. Deskew documents automatically. Sophisticated project details can be highlighted with Advanced Area of Interest selections. KIP Smart Stack simplifies the accurate collation of mixed sets of colour and black and whites prints. The professional colour editor included with KIP ImagePro offers a high definition colour editor with real time colour correction viewing. Create impressive vibrant colour impact for posters, banners, point of purchase, business communications, safety, and technical images. Streamline colour correction with colour exchange selections from a choice of multiple colour spaces for optimal results.

Area of Interest (AOI)

Matrix Scan & Copy with HD Viewer, "Pop out" Panels & Device Status

Professional Colour Management

KIP ImagePro Key Features

Auto Start for Stream Feed Productivity | Auto Width Detection | Auto Deskew | Auto Increment of File Name | Advanced Area of Interest Selection | Professional Colour Editor & Correction Features | KIP Smart Stacking | High Definition Viewing | Customisable Interface for Personalised View

KIP ImagePro – Scan & Copy Feature Descriptions

File Renaming Mode

Rapidly rename hundreds of files with KIP's file renaming tool. Batch scan using production file naming conventions and rename the files post scanning. Use KIP's HD Viewer to zoom in and lock onto the title block area. Enter a new name and press enter to auto zoom to the same location on the next file.

Image Navigator

Within the KIP High Definition viewer, quickly navigate long length images or jump to any position with the Image Navigator. The repositionable thumbnail displays the current location on the zoomed in image. Set the location of the thumbnail view in any of the four corners. Select any new location or drag the Navigator box to change locations.

Stream Feeding Productivity

Auto Start for continuous original document feeding for maximum productivity | Auto De-skew | Auto Width Detection | Auto File Name Increment | Auto Length Detection | Live Preview

Advanced Area of Interest

Select Size | Position | Save only the "area of interest" to enhance communication of sophisticated or important details

Professional Colour Editor & Correction Features

High definition colour editor with real time colour correction viewing to create impressive vibrant colour impact for posters, banners, point of purchase, business communications, safety, and technical images. Streamlines colour correction with colour exchange selections from a choice of multiple colour spaces for optimal results.

High Definition Viewing

High resolution image pre-flight viewer to include review of colour adjustments and preset creations | Colour or B&W | AOI Selection - Scale, Position, Print | Page ruler | View Scale to Pixels or In-Screen

Customisable Interface for Personalised View

Access your preferred productivity features with ease using "Pop Out" tools and panels

Scan Mode

B&W, Grayscale & Colour Scan to File | Scan to Local Drive, USB, LAN or Cloud locations | Wide Variety of File Formats | Scan to Multi-Page PDF and TIF | Set Image Compression | Utilise Templates | Embed Stamps | Control Margins | Mirror and Rotation
Copy Mode

Copy to KIP System K B&W and Colour Systems | B&W, Grayscale and Colour Adjustments | Save Unlimited Presets and Template | Secure Printing | Use Set Separation pages | KIP Accounting Integration | KIP Cost Center Integration

KIP 2300 SPECIFICATIONS

General	
Scanner Type	C.C.D. with Super-Speed USB3 Technology and KIP RTT Technology
Scan Resolution	600 x 600 dpi optical resolution
Scan Speed	Up to 18 m per minute (Mono), Up to 9 m per minute (Colour)
Scan Formats	TIFF, Multipage TIFF, PDF, PDF-A, Multipage PDF, DWF, Multipage DWF, JPEG, CALS
Scan Destination	Local USB (Removable Media), Unlimited IPS Mailboxes (Local), Unlimited FTP, Unlimited SMB
Original Size Width/Length	Originals Up to 1,066 mm - 914 mm Scan width
Original Thickness	Up to 16 mm Automatic thickness detection
Original Face Up/Face Down	Both - Dual Original Feed Tables
Interface	USB 3.0, Super-Speed USB3 Technology (5 GB per sec data transfer)
Dimensions	1,399 mm W, 480 mm D, 310 mm H
Weight	73 kg
Electrical	100-240V AC 50/60 Hz
Power Consumption	<120 watts
Minimum PC Requirements (NOTINCLUDEDWITHSCANNER)	Quad Core Processor (Intel i5 or higher) Windows 10 8 GB RAM 1 TB Hard Drive _(Example: 100 colour or 300 mono D Size images in a large set would require up to 5 Gb)_ 1 Gig RJ45 Lan Port _(Wireless is not recommended due to file transfers during copy process)_ One available USB 3.0 ports (scanner connection) 27" wide screen flat panel monitor USB Keyboard & Mouse
